

## HYDE PARK

Mrs. W. H. Pease spent Sunday with her son, A. B. Pease, at the Mary Fletcher hospital. She found him as well as could be expected.

Mrs. D. H. Scribner is spending a few days in Brattleboro, visiting Mrs. Chester Leach and attending the annual Rehearsal assembly as a representative from the lodge of this place.

C. E. Savery left Tuesday for Shoreham, where he will remain for a while. Last week he spent a few days with friends at Morrisville and Hardwick, and he had a real good time.

Mrs. Harold Waite and children of Morse's Line came here last week. Mrs. Waite returned home Saturday, leaving Virginia and Paul here for a few days' visit with Grandpa and Grandma Waite.

R. W. Hulburd, after a six weeks' sojourn at the Mary Fletcher hospital, returned home last week and is now recovering nicely from his serious operation, and able to give some attention to business.

R. W. Grant, the new hotel proprietor, is fixing up generally in and around the Hyde Park Inn, making many improvements. When completed the Inn will rank among the best in the state. Mr. Grant is a very genial host and has the faculty of making guests feel at home.

The "Highlanders" and the "Lowlanders" of the Y. P. C. A., had a delightful "bacon bat" down on the Wintergreen last week Wednesday evening. The event was a forfeit paid by the former to the latter. Besides a splendid "a la carte" feed there were games and a real good time all around.

Golf is now on in full force at the Lamolille County Links, parties being there daily to indulge in the popular sport. Hugh Savage is the man in charge and he has the grounds in very good condition. Several improvements have been made and more are contemplated. These links are delightfully located and visitors speak very highly of them.

## THE PLAN OF PROGRESS

### Governor Hartness Takes Steps to Inaugurate It

Declaring in general terms that "our method of conducting our business, both in the office and in the work, are about 50 percent efficient," Gov. James Hartness Monday notified the members of the budget committee that a meeting would be called in a few days at which will be considered "ways and means of improving methods of management of the state's business," with a view of ultimately preparing recommendations in keeping with the purpose of the statute creating the committee.

The Governor's letter sets forth that he believes the budget committee can recommend a "scheme of reorganization that can be carried out with the minimum disturbance and yet bring fairly prompt results," and he believes that a plan can be made to fit our governmental notions and which "will embrace a continuing force of a business executive and his chiefs of departments."

The article that appeared in the dailies in detail takes several columns. We reserve comment until our next issue.

## SEASON 100HOS NOSNHOI

Remember the date for the musical entertainment given by the pupils of the graded school on Wednesday evening, May 24. Miss Powell has charge of the play, which is "Flora," or "The May Queen Festival."

The baseball team lost to Barton Monday, 16-17, in a 14-inning game that was exciting from start to finish. They won from Enosburg, 6-8, and lost to Brigham, 6-10.

The honor list for the fifth and sixth grades contains the following names: "A" in all subjects, Pauline Stiles; "A" in all subjects except one, Winston Hebb and Raymond Titus; "B" or above in all subjects, Gertrude Dezaime, Lincoln Burleson, Wendell Griswold, Everett Lambert, Laurence Sinclair, Roger Despotis, Clarence Chaffee and George Miller; "B" or above in all subjects except one, Mattie Davis, Laura Grey, Hattie Brown, Clifton Richards, Richard Dyke and Kenneth Brown.

## LIME ON THE GARDEN

A number of gardeners are putting on an application of lime this year. The use of lime is to unlock valuable plant food which is tied up in the soil. It overcomes any sourness which might otherwise check growth and also is an important plant food. Chemical analysis shows that squash and cucumber vines contain approximately seven percent of calcium oxide (which is lime).

Most crops prefer a sweet soil for their best growth, although a few crops prefer sour soil. Some prefer a sweet soil, but can grow well in a soil which is somewhat sour. It is evident therefore that the best results from lime can be had only when the lime requirements for each crop is known and considered.

Plants which may be injured by too much lime are: Blackberries, lima beans, soy beans, tobacco, water melons, black-cap raspberries, beans, carrots, cress, grapes, millet red raspberries, rye and vetch.

Plants which will be benefited by lime, but will tolerate moderate acidity: Brussels sprouts, buckwheat, cauliflower, chard, corn, cucumbers, currants, dandelion, eggplant, endive, gooseberry, horse radish, kale kohi, radish, oats, parsley, potatoes, pumpkins, radishes, rhubarb, sunflower, strawberry, turnip, tomato and wheat.

Plants which will not make satisfactory growth unless the soil be well limed: Asparagus, barley, beets, cabbage, celery, leek, lettuce, muskmelon, onions, parsnips, peas, peppers, rape, salsify, spinach and squash.

The county agent is prepared to run soil tests of your fields or gardens and will tell you the amount of lime required to put the soil in a sweet condition and where supplies of lime can be obtained.

E. M. Houston Loses Forefinger

Ernest M. Houston had the forefinger of the left hand crushed Friday afternoon, necessitating the amputation of the finger below the second joint. Mr. Houston and his son, Robert, were building a fence and Mr. Houston inadvertently placed the hand on a fence post in a position to receive the full force of a blow from the post mail wielded by his son. The wound was doing well Saturday.

## New Bird Seen

A bird new to observers here is the semi-palmated plover, seen recently by Mrs. J. R. Wells. The bird lit on the veranda floor and remained while the door was opened and ate crumbs thrown out to it, giving opportunity to observe the webbed feet, black line from the eye to the bill and other distinguishing marks. The bobolink arrived on the 13th and the Baltimore oriole the 12th. Swallows, house wrens, purple finches, myrtle warblers, rusty black birds and other spring birds have been seen.

Prof. Adams to Leave Tuft's College  
Prof. C. A. Adams, who has been an instructor in mechanical engineering at Tuft's College for the past 13 years, has resigned his position to accept a similar one at the Franklin Union school in Boston July 1. Mr. Adams is the son of Mr. and Mrs. E. J. Adams of Stowe and was graduated from Stowe high school in the class of 1905 and from the U. V. M. in 1909. He has also taught in the night school at Franklin Union for 12 years and will continue this work in addition to his newly acquired position. Mr. Adams plans to spend his vacation in August with Mrs. Adams and family, who are passing the summer in Stowe.

**CREONOID**  
Increases poultry profits  
Droopy, unhealthy hens lay fewer eggs. And mites are the most frequent cause. Spray all woodwork in hen house thoroughly with Creonoid. It will eradicate these profit-wasting vermin. Creonoid also keeps cattle and horses from flies—kills dangerous blood-sucking varieties. Sure death for hog-lice. If your dealer can't supply you, write us. Free booklet on request.
